比较好的讲解:

 $\underline{\text{https://leetcode-cn.com/problems/longest-palindromic-substring/solution/zhong-xin-kuo-san-dong-tai-gui-hua-by-liweiwei1419/}$

```
1 def longestPalindrome(self, s: str) -> str:
          size = len(s)
2
          if size < 2:</pre>
3
              return s
5
          dp = [[ False for _ in range(size)] for _ in range(size)]
          max_len = 1
          start = 0
           for j in range(1, size):
11
                for i in range(0, j):
12
13
                    dp[i][j] = (s[i] == s[j]) and (j - i < 3 \text{ or } dp[i+1][j-1])
14
15
                    if dp[i][j]:
16
                        cur_len = j - i + 1
17
                        if cur_len > max_len:
18
                            max_len = cur_len
19
                            start = i
20
           return s[start:start + max_len]
21
22
```
